SEE THE BIG PICTURE

The most intelligent productivity software and management tool available to the restaurant and retail industries

360iQ combines live data with real-time video surveillance, creating a dynamic business operations tool

360iQ
SEE THE BIG PICTURE

360iQ provides a simple, but powerful solution, coordinating all critical data into a single, easy-to-use application. This dynamic tool is designed to help operators manage their business, save time and add peace of mind.

Visibility into your business – anywhere, anytime

360iQ provides visibility into your business anywhere, anytime using dashboard views of immediate store performance data, critical time alerts and access to all real-time and archived video.

360iQ utilizes cloud-based algorithms to analyze store-level anomalies across the enterprise. High yield and suspicious transactions are pushed to 360-iQ, substantially reducing the need for human auditors.
